FEBRUARY 1999 - N° 105

EURO FLASH

French government debt news

① Held on January 7 and February 4, 1999, the first euro OAT auctions were an outstanding success. Demand was strong for the 10-year benchmark OAT (4% April 2009), with a bid-to-cover ratio of 2.59 in January: since the start of the year, EUR 6.492 bn were auctioned on this line, raising its outstandings to EUR 15.8 bn. 872 million euros were issued on the 30-year April 2029 OAT. After these two auctions, the outstandings on this line reach EUR 6.96 bn.

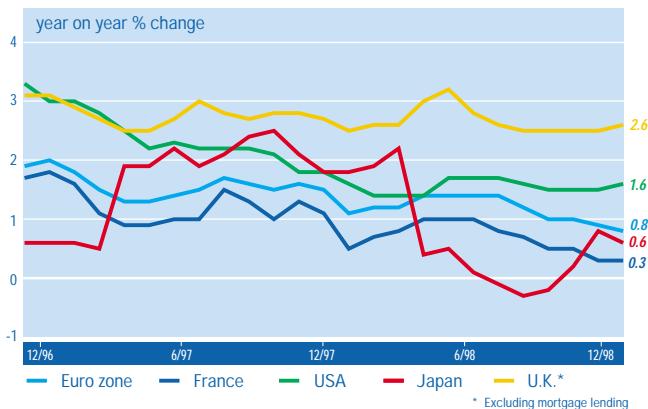

② On February 1, 1999, MATIF launched a dual-issuer 10-year Euro-notional contract, supported by a very deep pool of OATs and Bund eligible for delivery, with total outstandings around EUR 100 bn. Matif SA offers now a complete range of dual-issuer contracts on the two-year, five-year, 10-year and 30-year maturities. MATIF also decided to lower the notional coupons on the five-year and 10-year contracts to 3.5%, from respectively 4.5% and 5.5%.

TRANSITION TO THE EURO... ...TRANSITION TO THE EURO

EMU EVENTS

- ▶ **JANUARY 18, 1999** ECB's first monthly bulletin. In this first issue, the ECB notably outlines the economic indicators which, in addition to monetary aggregates, will be tracked in order to assess the outlook for price developments in the euro area. The ECB will monitor financial indicators (changes in nominal and real interest rates), indicators of real activity (GDP, household and industrial confidence, capacity utilisation rates, retail sales, etc.) and labour market changes (wages, unemployment rate), as well as the fiscal stance in the euro area.
- ▶ **JANUARY 21, 1999** Governing Council of the ECB. The Governors confirmed their earlier assessment of the outlook for price stability and decided to keep the ECB's main refinancing rate at 3%. Prompted by the satisfactory integration of the euro area money market only three weeks after its birth, the ECB decided to restore the interest rates for standing facilities which it had set for the start of Stage Three, i.e. 4.5% for the marginal lending facility and 2% for the deposit facility, effective from January 22, 1999.

FRENCH GOVERNMENT DEBT NEWS

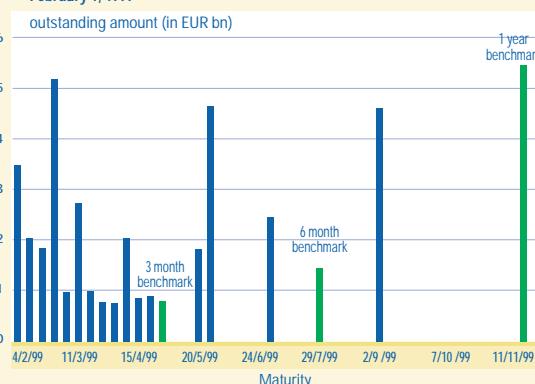

- ▶ **JANUARY 7, 1999** Successful first euro OAT auction. This first auction was a conclusive success, thanks to high end-investor demand, notably from Asia. EUR 3.427 bn of the 4% April 2009 OAT were issued, with a bid-to-cover ratio of 2.59. The 30-year OAT (5.5% April 2029), issued in the amount of EUR 370 million, was three times oversubscribed. With similar amounts issued on February 4, the outstandings of these two lines were raised respectively to EUR 15.80 bn and EUR 6.96 bn.
- ▶ **JANUARY 27, 1999** MATIF-MONEP conference on the French derivatives markets' strategy for 1999. Matif SA announced the conversion of the Euro 10-year notional contract into a dual-issuer 10-year contract accepting French and German government debt for delivery. A large amount of bonds (EUR 100 bn) will be eligible for delivery into the new Euro notional contracts. This deep pool eliminates the risk of a squeeze for these contracts, whose June and September 1999 maturities were opened on February 1. Another dual issuer 5-year contract (with June 1999 maturity) was launched in early February. The notional coupon on the 5- and 10-year bond futures was also lowered to 3.5%. Finally, MATIF aims to become the leading market for three-month Euribor interest rate futures.
- ▶ **FEBRUARY 4, 1999** Second inflation-indexed bond auction. EUR 626 million were auctioned on the 3% July 2009 OAT_i, raising outstandings on this line to EUR 4.966 bn. OAT_i have become an integral part of the government funding program. They will be auctioned regularly throughout 1999, with an annual issuing target of around EUR 6 bn, either by complementing the existing line whether by issuing on the existing line (3% July 2009 OAT_i) or by creating a new OAT_i; in order to create a second point on the euro real yield curve.

THE BTFs: A BENCHMARK AMONG EUROPEAN SHORT-TERM SECURITIES

BTFs, French government fixed-rate short-term discount Treasury bills, are among the most liquid short-term government securities in the euro area. With average total outstandings of almost EUR 50 bn, they account for more than 15% of the European short-term government securities market. BTFs are the benchmark 3-month, 6-month and 12-month securities in the euro area, thanks to an issuing policy based on fungibility, transparency and regular auctions. Two lines, specified beforehand in a quarterly timetable, are auctioned every Monday.

Durée de vie moyenne des obligations :

8 ans et 261 jours

Average maturity of OATs:

8 years and 261 days

TMB : moyenne arithmétique des taux de rendement moyens mensuels de BTF à 13 semaines constatés au cours de l'année précédant la date de mise en paiement du coupon.

TRA : taux révisable, en fonction des taux de rendement des emprunts d'État à taux fixe d'échéance supérieure à 7 ans, publiés par la Caisse des Dépôts et Consignations.

TME : moyenne arithmétique des taux de rendement moyens mensuels des emprunts d'État à taux fixe d'échéance supérieure à 7 ans sur l'année précédant la date de mise en paiement du coupon.

TEC 10 : taux de l'échéance constante à 10 ans.

TMB: the coupon rate on payment date is the arithmetic mean of the monthly average of the 13-week T-Bill auctioned weekly throughout the previous calendar year.

TRA: variable rate based on the yields of all fixed-rate French Government bonds (EE and OATs included) with maturities greater than 7 years, as published by the CDC.

TME: the coupon rate is the arithmetic mean of the monthly average of all fixed-rate French Government bonds (EE and OATs included) with maturities greater than 7 years. The coupon rate is fixed every January based on the previous calendar year.

TEC 10: 10-year constant maturity Treasury.

FRENCH GOVERNMENT SECURITIES

1999 auction calendar

OAT AUCTION CALENDAR FOR THE YEAR	OAT 1 st Thursday of the month	A fixed-rate 10-year line, of either the existing 4.00% April 2009 OAT or another OAT line to be opened; if market conditions permit, other fixed-rate or floating-rate lines, either existing or to be opened, or inflation-indexed
BTAN SEMESTERLY AUCTION CALENDAR	BTAN 3 rd Thursday of the month	Lines auctioned during the first half-year of 1999 • BTAN 4.00% July 12/2000 • BTAN July 2001 • BTAN 3.50% July 12/2004
BTF QUARTERLY AUCTION CALENDAR	Each Monday	BTF 13 weeks, semester, or 1 year according to the calendar on the other side.

The Treasury reserves the right to cancel an auction listed on the calendar if exceptional market conditions warrant it, or to hold an extra auction according to its borrowing needs and market trends.

Furthermore, the Treasury reserves the right to create new, long- or medium-term during the year, or to issue further tranches of previous issues in accordance with market conditions. The Treasury also reserves the right to use banking syndicate issue procedures.

The exact nature of the Treasury issues will be communicated to the market in the days preceding each auction with information on the volume of the issues.
